

Teaching, Learning and Technology Centers (TLTC)

An Extension of the LDE's Louisiana Center for Educational Technology

The first four Teaching, Learning, and Technology (TLT) Centers were established in December 1998. TLT Centers were awarded and funded through the Federal Technology Literacy Challenge Professional Development Grant initiative. Five additional TLT Centers and one branch TLTC were identified in the 1999-2000 school year. Each TLT Center is designed to: (1) serve as an extension of the Louisiana Center for Educational Technology, (2) provide technology training services to educators in the immediate and surrounding parishes, (3) and support the efforts of the Regional Service Center in the area of the TLTC.
