## State and District Table

**Explanatory Note:** Please see this table's User's Guide for detailed explanations of the accountability terms.

\* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

## State and District Table

**Explanatory Note:** Please see this table's User's Guide for detailed explanations of the accountability terms.

\* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

## State and District Table

**Explanatory Note:** Please see this table's User's Guide for detailed explanations of the accountability terms.

\* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

## State and District Table

**Explanatory Note:** Please see this table's User's Guide for detailed explanations of the accountability terms.

\* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

# Fall 2003 Accountability Summary Results

## State and District Table

**Explanatory Note:** Please see this table's User's Guide for detailed explanations of the accountability terms.

\* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

## State and District Table

**Explanatory Note:** Please see this table's User's Guide for detailed explanations of the accountability terms.

\* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

# Fall 2003 Accountability Summary Results

## State and District Table

**Explanatory Note:** Please see this table's User's Guide for detailed explanations of the accountability terms.

\* The state-level numbers and percentages contain data from all public schools, including the laboratory and Type 2 charter schools. However, as the laboratory and Type 2 charter schools are not under the control of a school district, their data are not included in the district-level numbers and percentages.

Revised: April 2004
